PEAK RISER

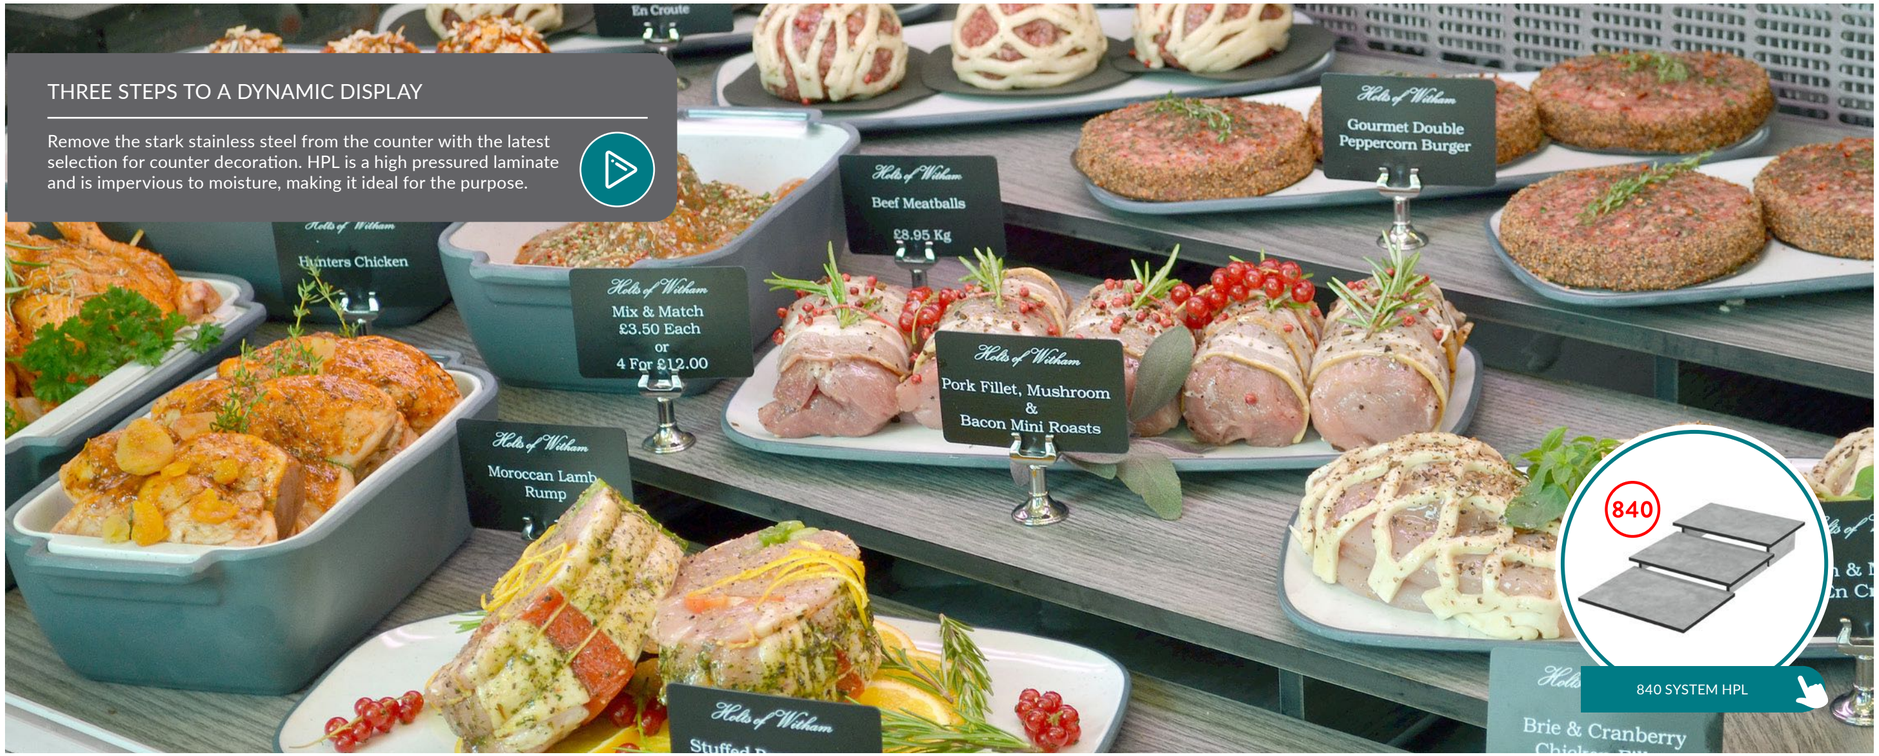

Made from a high-quality thermoplastic material, its elasticity and rubber-like texture effectively disperses weight evenly. Peak can be laid flat, upright like a pyramid, or even interlocked together, creating versatility in height. Use four of them to elevate a platter or one to use under a bowl. Its material makes it non-slippery and very convenient to use to use in a self service buffet. Its durability and modern design make it an excellent addition to any food presentation. Peak will take your food display to new heights.

PLASTICS

There is a common misperception that plastics use a large amount of the world's petroleum. Less than 4% of the world's oil production goes to produce all types of plastics. PET accounts for less than 1/2 of 1%. PET is fully recyclable, it's a highly sustainable material. Every time a PET container is recycled, its petroleum feedstocks can be recaptured and reused.*

HU WE ARE

Dalebrook Supplies are world leaders in the design and manufacturing of melamine display and tableware.

With increased global pressure for businesses to remove all forms of single-use, Dalebrook has worked closely with contract caterers, with the sole purpose to create a lasting product for current and future demands.

OUR COMMITMENT

As a business, Dalebrook has made a conscious decision to move towards a more environmentally secure culture, thus launching into the market a reusable solutions with HU and Hive supporting our commitment to sustainability.

Our solutions tackle single-use products within the industry and will provide operators with a sustainable image.

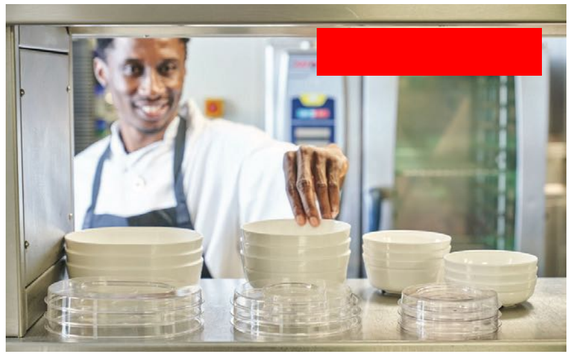

CURRENT SINGLE-USE ISSUES	DALEBROOK SOLUTIONS
Single-use packaging is expensive and results in large amount of waste.	HU or Hive cuts down the cost of waste management, transportation, packaging.
Cardboard or plastic take away boxes do not keep the food warm.	Melamine is the perfect material for food use as it has a highly thermal insulation property.
Large storage space is needed to store single-use packaging.	HU and Hive are perfectly stackable designed to minamise storage space.
Single-use boxes have a high cost due to transportation	You no longer require constant deliveries of disposable stock. Helping reduce pollution.
